

## **EODSA match officials travel policy**

May 18, 2016

### **Match official travel policy**

The EODSA has a match official travel expense policy based on a zone model rather than an actual mileage traveled model. The match official's home and all fields are located within one of 23 zones.

When a match official officiates a game, a table is used to calculate the travel expenses. The table indicates how much, if any, is to be paid. We are not changing the model for 2016 but we are changing the policy to implement it.

In 2016 the changes are:

Travel expenses will only be paid for the following games

- Adult competitive games
- Adult recreational and youth games if the game is played in a rural zone

Travel expenses will no longer be paid for the following games

- Adult recreational and youth games that are played in a suburban zone

Suburban locations are

- Stittsville
- Kanata
- Richmond
- Nepean
- Ottawa
- Gloucester
- Cumberland

All other zones are considered rural zones

Examples:

- If a referee lives in Rockland and referees a MC2 game in Nepean then travel expenses will be paid.
- If a referee lives in Rockland and referees a MR1 game in Nepean then travel expenses will not be paid.
- If a referee lives in Nepean and referees a MC2 game in Rockland then travel expenses will be paid.
- If a referee lives in Nepean and referees a MR1 game in Rockland then travel expenses will be paid.
