

Scenario 1

For clubs that have Sports Engine HQ (premium version), each **member** has a profile that allows them to upload their own photo. This photo will follow them wherever they are in the system, login profile, OSCAR, Governing Season, Team Centre and the Roster the District approves etc. It covers players, coaches, boards. This is the recommended option. To purchase Sports Engine HQ, please contact Sports Engine.

See first screenshot below

Scenario 2 – DO NOT DO THIS

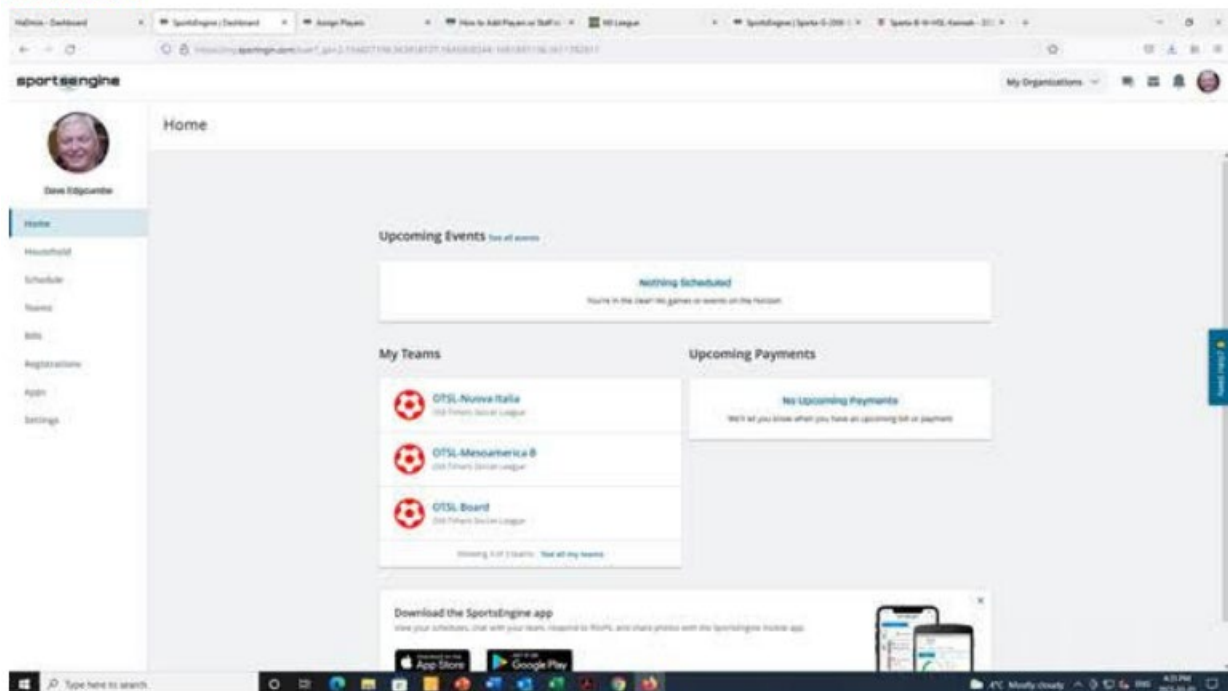

There is also an option for Sports Engine HQ **coaches** to upload player photos into Team Centre for the current season roster. A Club Admin is able to see the photos but the District CANNOT. This process would require the photo to be uploaded every time the player changes teams or season or even a transfer within a season.

Scenario 3

For non-Sports Engine HQ members (Clubs that import data from Power-up etc, and haven't paid for the HQ version). Player photos are uploaded at the Club once the rosters are imported into OSCAR. This would have to be done every time a player changes a team or season.

Scenario 3

The screenshot displays the SportEngine HQ interface for the 2022 Outdoor Season. The main content area is divided into two sections: a player roster table on the left and a detailed player profile on the right.

Stephanie MacDonell 302142712	Sparks @ W-HQ, Kempton	1	18 - 22 - Female

The right-hand panel shows the profile for Macy Price (302142064). It includes a 'Roster Status' section with a green 'Approved' tag and a note: 'This player's roster status is based on the following criteria:'. Below this, there are two 'Eligibility' items, both marked as 'Approved':

- Ontario Soccer 2022 Outdoor Season (Approved to Member Sports Center Club)
- Ontario Soccer 2022 Outdoor Season (Kemp from Nov 1, 2021 until Dec 31, 2022)

There is also a 'Gender' section with a green checkmark and the text: 'Player's gender does not meet the requirements'. The 'Player Information' section is partially visible at the bottom.

You can see that if you are not an HQ subscriber you as the Club will have to upload all player photos. I would suggest that you start collecting them as soon as you register players and start adding them with each Oscar upload.
